Professional Summary

I am an undergrad with a foundation in Web Development and Data Structures. I have experience in designing web APIs with frameworks and technologies such as Node and Express. Moreover, I have worked with both relational databases like SQL and NoSQL databases such as MongoDB and MySQL enabling me to design scalable and efficient data models according to project needs. I am eager to solve complex problems through code and continuously enhance my skills by exploring new technologies. As a fresher, I am excited to contribute to meaningful projects and thrive in a challenging environment.

Technical Skills

Programming Languages: Java, JavaScript (ES6+) , Python

Backend: Node JS, Express, REST API Development

Frontend: HTML, CSS, JavaScript (ES6+), ReactJS, Bootstrap

Databases: MongoDB, MySQL

Other: Object Oriented Programming (OOP), Data Structures, Website Hosting, Version Control (GitHub), API Testing and Debugging

Work Experience

Kasnet Technologies Pvt Ltd. (Intern)

Jan 2025 – Feb 2025

- Analyzed company data and created dashboards using Microsoft PowerBI which helped company to improve their strategies and business model which helped them to increase their profit by 20 percent.
- Gained knowledge about cloud solutions using Microsoft Azure.

Projects

CampSites | <https://campsites-a3ug.onrender.com/>

JavaScript, Node, Express, EJS, MongoDB, HTML, CSS, Authentication, Cloud, REST APIs, Bootstrap, GitHub

- Built and deployed a full-stack web application using Node, Express, MongoDB, Mongoose, EJS, and Bootstrap.
- Implemented 15+ REST APIs with authentication using Passport.js, allowing users to register, log in, and manage campgrounds.
- Users can do CRUD operations on campgrounds with descriptions and images, and post comments on them.
- Integrated Cloudinary for handling image uploads and storage.
- Applied middleware for access control, ensuring users can only modify their own content.
- Focused on a responsive, user-friendly interface and RESTful routing for smooth navigation.

Online Voting Booth | https://github.com/PrasadBhakare04/voting_app

JavaScript, Node, Express, MongoDB, Authentication, REST APIs, GitHub

- JavaScript being the main language for the project, used database MongoDB for storing the data. Node, Express for routing.
- Added 3+ roles for the user while registering, roles are appointed after proper verification.
- Implemented functionality for the user to Signup, Login and view the list of candidates with their number of votes.
- Candidates can register themselves on the portal.
- Users can vote for their desired candidate.

Personal Portfolio Website | <https://prasadbhakare04.github.io/Portfolio/>

JavaScript, Node, Express, EJS, HTML, CSS, REST APIs, Bootstrap, GitHub

- Designed and deployed a website showcasing my skill and proficiency over HTML, CSS, JavaScript.
- Various sections to view my information, projects, and contact details.

Education

Pursuing Bachelor of Engineering (Information Technology), Final Year

CGPA till 3rd Year – 8.83

Sinhgad Institute of Technology and Science (SITS), Pune | 2022 – 2026

Higher Secondary (XII) – Maharashtra State Board | 2022 | 67.50%

Secondary (X) – Maharashtra State Board | 2020 | 88.80%

Certifications

Full Stack Web Development (Udemy) - Covered MERN Stack, REST APIs, Deployment
